

What is Compono Engage?

Through culture assessments, Compono Engage enables you to:

- Find out what your company culture **actually** is, not what you **think** it is.
- Discover insights into the personality of your business, reveal subcultures within teams, and drive a high-performing culture.
- Turn your culture into a tangible hiring benchmark* and proactively build the culture you want.

Compono Engage Website

ENGAGE

Know who you are

Every candidate is unique.
And so is the business they're joining.

That's why Compono uniquely assesses both your business and the candidate, to find the best match.

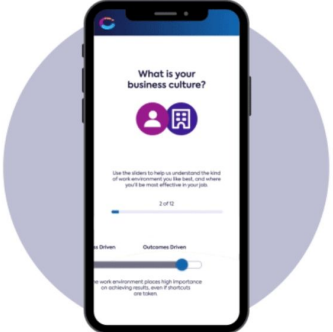

How it works

Map the way your business works across 12 key dimensions.

The results are your **culture**.

You then assess candidates at the front end of your hiring process, so you only spend time on candidates that are a good match.

Start By Mapping How Your Business Works

We believe there is no *perfect* candidate. Only the perfect candidate for *you*.
