

The respondent's view

- Respondents will receive an email invitation to complete a culture assessment online
- The email will come from noreply@compono.com using the name specified when setting up the campaign invitation.

The respondent's view

- When they log in to Compono Engage, they will see a survey waiting for them
- The survey is mobile friendly

The respondent's view

- The survey contains a pre-built culture assessment across 12 psychometrically validated dimensions.
- Respondents use a slider to describe what their work environment is like
 - right now (current culture), and
 - what it should be like in the future (desired culture)

The current culture

We want to know what your work environment (culture) is like **right now**. Not what the ideal is or what it should be like in the future.

There are 12 different aspects of culture that we want you to think about. For each one place the slider to the position you think best describes **how we work today**.

Only leave the slider in the middle if you think we are half way between the two, otherwise **move the slider!**

1 of 12

Innovative

Risk averse

The work environment is dynamic and creative. Employees are encouraged to be innovative and experiment with new ideas.

The work environment is controlled and regulated. Employees are encouraged to use tried and tested ways of work.
